CLICK® SCOLMORE® USB-C SOCKETS

Type A & Type C Ports

Supporting both Type A and Type C USB ports. Type C USB is reversible and can be plugged in either upwards or downwards.

Type A Charging Output: 5V DC, 2.4A

Type C Charging Output: 5V DC, 3A

** When both USB Ports are in use, the 4.2A charge is shared, with the Type C charger given priority to output its full 3A. The Type A output is reduced to an output of 1.2A.*

25mm Back Box

No additional spacer or mounting frames required. Reduced depth across all ranges. *

** Define® and Definity™ require a 35mm Back Box.*

Antimicrobial Certified

All moulded wiring accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella and Klebsiella Pneumonia.

MODE® polar™ Part M Range™

Safety Shutter Sockets

The Safety Shutters contained within our new 13A 2 Gang Socket Outlets with integrated Type A & Type C USB offer increased security and reassurance. All three pins of a UK BS Standard Plug must be inserted to release the locking mechanism to allow the safety shutters to open.

The Safety Shutters are designed to exceed BS 1363 requirements in which a standard BS 1363 Shutter only requires an engaging earth pin to open the shutter.

Deco®

With black/white inserts = **VP * 786 ***

With ingot inserts = **VP * 586 ***
